## MOTION PICTURES

For loan or purchase information write to Motion Picture Service, Office of Information, U. S. Department of Agriculture, Washington, D. C. 20250.

Prints are available for loan from land-grant college film libraries.

**Something to crow about.** Sound, color. 16 mm., 27½ minutes.

We accompany a European magazine writer to a hatchery, a feed mill, a broiler farm, a processing plant, and a supermarket. In the market we see an abundant display of attractively-packaged, USDA-inspected and graded poultry, poultry parts, and poultry convenience food products—all available at reasonable prices. The American consumer is reminded that every poultry product bearing the circular USDA inspection mark is safe, clean, and wholesome. At a large, modern processing plant, the U. S. Department of Agriculture's poultry inspection program—which enables consumers to select poultry with confidence—is pictured and explained. We see how poultry is graded for quality, and learn the difference between the inspection and grading programs. Tasty exotic poultry dishes tempt us, then the film ends with a typical American backyard chicken barbecue. Cleared for TV.
